Press tasting and lunch/dinner for Red Gold from Europe restaurant week

The second Red Gold from Europe White Day Week will take place from 14th – 24th March 2025 in Tokyo, Chiba and Yamanashi.

Red Gold From Europe is the name of the project promoted by ANICAV (the Italian National Association of Canned Vegetable Industries) and co-funded by the European Commission that aims to spread knowledge about EU preserved tomatoes 100% made in Europe, 100% Made in Italy.

After a Valentine's Day full of passion, let's make your White Day also full of red passion by spending it with someone special at one of the restaurants listed below.

Valentine's Day originated in Italy where vivid red tomatoes are grown under the full energy of the Mediterranean sun. The colour Red is considered to be a powerful amulet. Red Gold from canned tomatoes from Europe are also your amulets because they have a high lycopene content which helps you to avoid fall ill, especially important in this season, so you can keep healthy to spend time with your loved one.
